

Fancy, Love Never Dies

Days come and go
Children may grow
It's strange
When time slips away
Stories are told
We all must grow old
But when time passes by
Love never dies
Maybe you feel like it's over
But baby it's strong
Maybe your love undercover
It just can't go wrong
Love never dies

Love never dies
Every reason is you
Everything changes
But love is true
Your right from the start

When I give you my heart
Love never dies
Love never dies

Sometimes you've cried
Heaven know why
Lonely tears run away
From your eyes
Maybe we'll see
Two hearts can be free
In the life
Full of lies
Love never dies
Maybe you feel like it's over
But baby it's strong
Maybe your love undercover
It just can't go wrong
Love never dies
