Father John Misty, Real Love Baby

Our hearts are free So tell me what's wrong with the feeling I'm a flower, you're my bee It's much older than you and me I'm in love, I'm alive I belong to the stars and sky Let's forget who we are for one night We're not animals baby It's the people who lie I want real love baby Don't leave me waiting I've got real love maybe Wait until you taste me I want real love baby There's a world inside me Got the preacher's music Just if for a minute /2x
