

Faydee, Away

I am on my way to go
I am on my way to go

hi, baby
I've been thinking
you can change your life tonight

oh, honey
you've got me thinking
you need someone to love you right

take me away
take me away
show me there's a better world out there
take me away
take me away
show me there's a better world out there

I am on my way to go
I am on my way to go
show me there's a better world out there
I am on my way to go
I am on my way to go
show me there's a better world out there

oh baby
don't be afraid
I know you wanna running high
I am on my way to go

uh, honey
I know you're hurt
I promise it'll be alright

take me away
take me away
show me there's a better world out there
take me away
take me away
show me there's a better world out there

I am on my way to go
I am on my way to go
show me there's a better world out there
I am on my way to go
I am on my way to go
show me there's a better world out there

baby, its good life out there!
if you feel me
say, yeah, yeah, yeah
if you feel me
say, yeah, yeah, yeah
baby, baby
baby, its good life out there!
if you feel me
say, yeah, yeah, yeah
if you feel me
say, yeah, yeah, yeah

take me away
take me away
show me there's a better world out there
take me away

take me away
show me there's a better world out there

I am on my way to go
I am on my way to go
show me there's a better world out there
I am on my way to go
I am on my way to go
show me there's a better world out there
