

# Faydee, You don't know me

I Guess U dont know me  
But i know i know U  
From the scent of your skin  
To the way that he holds U  
I know you dont love me  
But i know i will love you  
If you open up for me  
I'll do anything for U

Verse I:

Don't be scared by my words  
U may think that im absurd  
It's just i know what i want  
And what i want is somthin i  
Cant really get  
Tried my best to pretend  
Tried my best to forget U  
But i cant seem to

Prehook:

Honestly baby if you look me in the face  
youll know i aint playing games  
I hate playing games  
And honestly baby  
I aint trippy i just want U to get with me  
Get to know me  
Get get to know me

Chorus:

I Guess U dont know me  
But i know i know U  
From the scent of your skin  
To the way that he holds U  
I know you dont love me  
But i know i will love you  
If you open up for me  
I'll do anything for U

Verse II:

Your involved  
Yes i know  
And your happy  
Ive been told  
But that dont mean imma let go

Guess its got somthin to do  
With the fact that i cant have U
