

Feeling Left Out, Breathe

no holes in the roof
the rain can't make it's way in
we're sittin' down
you can lay back down
keep your head down
they'll think we're asleep
although you're there
because i'll still feel you breathe

it's raining it's pourin
everyone's snoring
drive through the night
i swear we're almost old

keep your head down
they'll think we're asleep
although you're there
because i'll still feel you breathe

wiper plates go through the rain
engine helps and keeps us always to one side
across the pavement
