

Felix the Baker, Galaxy

Shut your trembling mouth
And close your eyes
Leave that film
Just put it down
Turn off the light
Sit comfortable
I'll entertain you

Take few deeper breaths
Forget your mac
Erase your memory
Up to date
Give me a chance
I'll tell you the truth
And entertain you

To see that beauty of your smile
I will travel with you even up to sky
One sweet ...
You shine like one
You shine like one
I'll search whole galaxy to prove
That no one else as cute as you
You're just like star one a kind
You're the kind

Please don't ... your tears
Let them go
Fuck emotions
Fuck them all
I'm right here
I know what's the truth
I'll entertain you

I'll cheer you up
Shining star
Glowing far on the sky
I'm the night
And I'm the moon
I'll entertain you

To see that beauty of your smile
I will travel with you even up to sky
One sweet ...
You shine like one
You shine like one
I'll search whole galaxy to prove
That no one else as cute as you
You're just like star one a kind
You're the kind
