

Fergie, Love Is Pain

You don't know how it feels to be me
wish you could feel it
you could never survive this burning
forever growing inside a
shell that you call a body
what have you done to us

you know when I'm most insecure
you bring me down further
I could never live up to perfect
Just when I've had enough
your views change
love fills me up
it's fire we're playing with
and I'm like a moth attracted to the flame

one day when you wake up missing me
I hope you go insane
cause pain is love and love is pain
cause pain is love and love is pain
cause pain is love and love is pain

and when they all act crazy
you will appreciate me
cause no one else will love you more
and take the pain from your thoughts
and when yur world is falling
baby I'll let you crawl in
when you can love me all the way
cause pain is love and love is pain
cause pain is love and love is pain
