

# Fifth Harmony, Better Together

Lauren

When we were together  
We were just strangers  
I was just playing around  
So I didn't wanna work it out  
Yeah, I didn't wanna work it out

Normani

Got something else missing  
We were too different  
Baby I've been looking back now  
I really should've worked it out  
Yeah, I really should've worked it out

Dinah

Because now that you're gone and I sleep alone  
I can't help it, I want you back, 'cause I

Chorus

Boy I miss you  
Said I really do  
Boy I miss you  
You don't understand that we're better together  
Boy I miss you  
Said I really, really do  
Boy I miss you  
You don't understand that we're better together  
We're better  
We're better  
We're better  
We're better  
We're better  
You know that we're better together  
We're better  
We're better  
We're better  
We're better  
We're better  
You know that we're better together

Camila

Watching you wake up  
Thinking I had you  
I was like I was so dumb  
Boy I should've known that you're the one  
Yeah, I should've known that you're the one

So if it's not too late

Fifth Harmony

I just wanna know

Normani

It's me baby, we could still run  
Because I finally know that you're the one  
Yeah, I really know that you're the one

Ally

Because now that you're gone and I sleep alone  
I can't help it, I want you back, 'cause I

Chorus

Boy I miss you  
Said I really do

Boy I miss you  
You don't understand that we're better together  
Boy I miss you  
Said I really, really do  
Boy I miss you  
You don't understand that we're better together  
We're better  
We're better  
We're better  
We're better  
We're better  
You know that we're better together  
We're better  
We're better  
We're better  
We're better  
We're better  
You know that we're better together

Camila  
And now that you're gone and I sleep alone  
I can't help it, I want you back, 'cause I

Chorus  
We're better  
We're better  
We're better  
We're better  
We're better  
You know that we're better together  
We're better  
We're better  
We're better  
We're better  
We're better  
You know that we're better together

Boy I miss you  
Said I really do  
Boy I miss you  
You don't understand that we're better together  
Boy I miss you  
Said I really, really do  
Boy I miss you  
You don't understand that we're better together  
We're better  
We're better  
We're better  
We're better  
We're better  
You know that we're better together
