

Fighting Instinct, I Found Forever

I thought my world was complete.
I was living a life made on shaky ground.
I was blinded so I couldn't see.
I couldn't stand I thought I was drowning.
I thought I was sinking.
I thought I was dying.

(chorus)

I found forever in your arms
I know just right where I need to be.
I found forever in your arms.
I know just right where I feel free.

Some nights I would lie all alone.
Dreaming of You and the way things should be.
You know, I had no chance on my own.
But now I can make it with you next to me.
Now we are together.
Now I've found forever.

Chorus

(Bridge)

Some how you came
And took all my pain away.
I know that I can't
Repay all the love You gave.
All the love that you gave.
