

Fightstar, Speak Up

I'll never do it again
I swear I never will
I will never speak to you again
You talk to me
I swear I'll hurt me

Speak up is a word you can't say without falling down
How do you know
How do you notice
Speak up is a word you can say but you let me down
Just answer me

You'll never feel you
You do it everytime
You know you need me
Yeah hold me
Fuck you all or show you now I'll die
You talk to me
That's where we'll see

Speak up is a word you can't say without falling down
How do you know
How do you notice
Speak up is a word you can say but you let me down
Just answer me
