

# Fireforce, Deathbringer

We are waiting, for the sign to cross  
Out of the safety here, attack the boche  
One big explosion, there goes the mine  
Hawthorn ridge, flattened as a line...

10 minutes more, and off we go  
Will we survive? Nobody knows  
My friends are here, wife and kids at home  
Will they remember me, when I'm gone?

All is quiet here below  
Hear the whistle blow!  
Running to the line  
We're the ones who live forever  
Darkness in our eyes  
The death, the deathbringer  
Devil in disguise  
Dressed in black - The grim reaper  
Master of the lies  
The death, the deathbringer

Running to their lines  
Hear my friends cry  
Earth is coloured red  
Everybody dies

All is quiet here below  
Hear the whistle blow!  
Running to the line  
We're the ones who live forever  
Darkness in our eyes  
The death, the deathbringer  
Devil in disguise  
Dressed in black - The grim reaper  
Master of the lies  
The death, the deathbringer
