

Fireforce, To the Battle

Sitting on our panzers, heading for the east
Fighting for our glory
Our force will be unleashed In our hearts forever, fulfil the prophecy
We will ride victorious
We'll strike you'll see!

On plains and dust we ride
A wall of steel with pride
The smell of death is near
We will fight

To the battle - Stand up and fight
To the battle - We ride!
To the battle - Fight! Fight!
To the battle - Stand up and fight

Rolling through the desert storm
Hot like living hell
Cannons of destruction
Hear the soldiers yell!

Rolling through the desert
Hot like living hell
Heading for Al-Alamein
The tolling of the bell
21. Panzer, prepared to fight and die
Led by the Desert Fox
Comrades at our side

On plains and dust we ride
A wall of steel with pride
The smell of death is near
We will fight

To the battle - Stand up and fight
To the battle - We ride!
To the battle - Fight! Fight!
To the battle - Stand up and light

Sounds of the desert, oasis in sight
Blazed gun positions, in the fading light
All guns blazing, attacking with no fear
The sky is clouding over, the ending is near

On plains and dust we ride
A wall of steel with pride
The smell of death is near
We will fight
