Firerose, Time (feat. Billy Ray Cyrus)

Smoke has turned to ashes No fire from the flame Now we stand here wondering Which one is to blame Time

Years have turned to memories Future's now the past Who turned it all upside down Flipped the hourglass

Time
Tell me who made time
Time
Tell me who made time

I know I don't know everything But I know what I don't know One thing that I know for sure Is I can never let her go So tell me who made time

Tell me that she's mine Till the sun no longer shines Forever will be fine Tell me who made time

If I could ask for one last prayer And the maker would be so kind I'd beg steal or borrow For just a little more of that precious time

So tell me who made time Tell me that she's mine Till the sun no longer shines Forever will be fine Tell me who made time Tell me who made time

Time Time Time Time Time Time Time Time Time Time Time Time Time Time Time
