

# Firewind, Hands of Time

Rage and fire in me  
Turns a boy (in)to a soldier  
There's no wrong or right in the fight  
For we do as we are told

Years went by and and I became  
A king to lead this land to fame  
Deep inside I feel the power  
When it's over, it's over

And the fear inside us  
Will never divide us all  
For united we'll never fall

We will never know the future  
We will only know the past  
For an instant there'll be sorrow in their eyes

There'll be no one to surrender  
And our numbers (are) fading fast  
Victory will not rewind the hands of time

In the southern sea  
Vicious strikes on the water  
No bridge left to cross  
We'll destroy everything you leave behind

All in my head and out of my mind  
I'm keeping the faith with forces allied  
If theres a chance I'll make someone pay the price  
But the war's not over

And the fear inside us  
Will never divide us all  
For united well never fall

We will never know the future  
We will only know the past  
For an instant there'll be sorrow in their eyes

There'll be no one to surrender  
And our numbers (are) fading fast  
Victory will not rewind the hands of time

We will never know the future  
We will only know the past  
For an instant there'll be sorrow in their eyes

There'll be no one to surrender  
And our numbers (are) fading fast  
Victory will not rewind the hands of time

Hands of time  
Victory
