

Firewind, Land Of Eternity

Father, you helped us to build it right
Intruder, you destroyed the land's pride
Hunger, can't you see it in our eyes
Disaster, all over

(Ahhh-ahhhh)
(Ahhh-ahhhh)

Brother, let's get through bad times
Someday, we're gonna see a light above
Anger, it's a passion in our eyes
Unsecured, all over

(Ahhh-ahhhh)
(Ahhh-ahhhh)

The land of eternity
Is beneath the sky
The land of eternity
You will never die
The land of eternity
Now begins to cry
A disgrace on you
Our wounded hearts
Will never, ever heal

Mother, please tell us what to do
An angel, guiding us to the root
Sister, we've gotta share our love and
Now pray for the children, our future

(Ahhh-ahhhh)
(Ahhh-ahhhh)

The land of eternity
Is beneath the sky
The land of eternity
You will never die
The land of eternity
Now begins to cry
A disgrace on you
Our wounded hearts
Will never, ever heal

We did follow the rules
We were not blind
They ranked us, third world
These coins aren't forever
And hearts without mankind
The wars will never end

-Solo-

The land of eternity
Is beneath the sky
The land of eternity
You will never die
The land of eternity
Now begins to cry
A disgrace on you
Our wounded hearts
Will never, ever heal
