

# Five Finger Death Punch, A Place To Die

[V1:]

It's days like this I wish that I, wish that I had stayed asleep  
It's times like these that make it so difficult to be  
The light at the end, the crack in the sky  
there's no promise for release  
No way for me to get away  
And all I'm trying to do is breath

[Chorus:]

Searching...for something more  
Searching...for something right  
Searching...for a sense of clarity  
Searching...for a place to die!

[V2:]

Days like this I really wish, I really wish I wasn't me  
It's times like this that make it hard, makes it hard to f\*\*kin' see  
No light at the end, no crack in the sky  
everyone ends up deceased  
A life like mine makes a man, turns a grown man to a flea

[Chorus:]

Searching...for something more  
Searching...for something right  
Searching...for a sense of clarity

Searching...for a place to die!

[Pre-verse:]

Piece by piece, I slowly fade away,  
I slowly drift apart  
I see a different world, closing in on the future  
Sorry to be so cynical but it's all I know  
Piece by piece, I slowly start to change  
I slowly start to change!

[V3:]

It's days like this I wish that I, wish that I had stayed asleep  
It's times like these that make it so difficult to be  
No light at the end, no crack in the sky  
everyone ends up deceased  
A life like mine makes a man, turns a grown man to a flea

[Chorus:]

Searching...for something more  
Searching...for something right  
Searching...for a sense of clarity  
Searching...for a place to die!

Searching for a place to die!
