

Five Times August, Love The Way

Baby, come inside you'll never know what you might find.
Maybe you'll find that there are better days if you leave these days behind.
So baby take my hand and let me show you, let me show you

Cause I love the way you love the way I love you
And I love the way you love me too
And I love the way we take away each other
Into places that erase away our thoughts, our cares, our dreams or scares
And I never want to let you go
Because I love the way you are

So Baby, you live and learn, you crash and burn, and c'est la vie
But it's crazy to me, you'll never see, no you'll never see what you mean to me
But baby take my hand and let me show you

Cause I love the way you love the way I love you
And I love the way you love me too
And I love the way we take away each other
Into places that erase away our thoughts, our cares, our dreams or scares
And I never want to let you go
Because I love the way you are
