Flipsyde, Someday

[Chorus]

Someday we gonna rise up on that wind you know Someday we gonna dance with those lions Someday we gonna break free from these chains and keep on flyin'

[Verse 1] They tellin' me it's all good just wait You know you're gonna be there someday Sippin' on Jim Beam ok Gotta get these things one day Till then do another line you know Searching for that other high Stop or I gotta steal then steal Kill or I'm gonna be killed I got a sack in my pocket Conscious yellin' drop it You know we're gonna lose it someday And we tryin' to hold it all together but the devil is too clever so I'm gonna die you gonna die we gonna die Someday one day I said

[Chorus]

Someday we gonna rise up on the wind you know Someday we gonna dance with those lions Someday we gonna break free from these chains and keep on flyin'

[Verse 2] Try to lie but it ain't me Ain't me Try to look but I can't see Can't stop right now cause I'm too far and I can't keep goin' cause it's too hard In the day in the night it's the same thing On the field on the block it's the same game On the real if you stop then it's no pain but if you can't feel pain then it's no gain Rearrange and you change and it's all bad and you try to maintain but you fall back And you crawl and you slip and you slide down Wanna make it to the top better start now So I hold my soul and I die hard All alone in the night in the graveyard Someday one day I'm gonna be free and they won't try to kill me for being me Hey someday

[Chorus] Someday we gonna rise up on that wind you know Someday we gonna dance with those lions Someday we gonna break free from these chains and keep on flyin'

If you know how this is Gonna see it's not that easy Don't stop get it till it's done From where you are or have begun I said keep on try a little harder to see everything you need to be Believe in your dreams That you see when you're asleep

[Chorus] Someday we gonna rise up on that wind you know Someday we gonna dance with those lions Someday we gonna break free from these chains and keep on flyin'
