

# Flo Rida, Once In A Lifetime

Love comes once every now  
You and I know your love comes once in a lifetime  
Love comes once in a lifetime  
/2x

She was the neighborhood dream girl  
Can look, but don't touch, they all wanna know us  
If it ain't with me, then it can't be no one  
When the groupies came to the show  
When the money started to grow  
You stayed down, don't play around  
Look at this girl we made now  
Been around the world and I came right back for your love  
Forgive me for the days and nights I was cutting up  
Wanted the motions in the ocean and emotions covered up  
From flashing lights in the club to magazine covered up  
Fly you to Miami and cop you floor seats  
And you would always tell me your heart was for me  
Way before the models ripped the runway  
It was us, drop-tops, speeding down the runway

So let's go  
I want you to know that you're special  
I'll never compare you to no one  
Baby, cause I know that your love comes  
Once in a lifetime

Love comes once every now  
You and I know your love comes once in a lifetime  
Love comes once in a lifetime  
/2x

And she was prom queen, I'm just a new Jack  
My city tatted on my back, she had my back, I knew that  
But I started looking for more  
When they started feeling the flow  
Them girls trouble  
Come more than a lifetime and time don't wait for no one  
I'm out here like I throw ones and they dance for me  
My man he warn me how my come-up might just cancel me  
Now I gotta go fix that, get that, hit that  
He flip that in that like I used to be big D-A-D-D-Y  
I'm so special, she can't have another dude that woo her  
I got my Bugatti, but that just pickup up woo her  
That sears these years on lairs get weird  
My fear is tears that smears and make-up  
Don't ever make up, you better wake up

So let's go  
I want you to know that you're special  
I'll never compare you to no one  
Baby, cause I know that your love comes  
Once in a lifetime

Love comes once every now  
You and I know your love comes once in a lifetime  
Love comes once in a lifetime

I only got one life to live  
And I wanna spend it with you  
Love the money and the cars, but listen, baby  
You are what I've been missing

Love comes once every now

You and I know your love comes once in a lifetime  
Love comes once in a lifetime
