

# Florence & The Machine, Ship To Wreck

Don't touch the sleeping pills, they mess with my head  
Dredging of big white sharks, swimming in the bed  
And here comes a killer whale, sing me to sleep  
Thrashing the covers off, has me by its teeth

And all my love remind me, what was it that I said  
I can't help but pull the Earth around me to make my bed  
And all my love remind me, what was it that I did  
Did I drink too much?  
Am I losing touch?  
Did I build a ship to wreck?

To wreck, to wreck, to wreck  
Did I build this ship to wreck?

What's with the long face?  
Do you want more?  
Thousands of red-eyed mice, scratching at the door  
And don't let the current catch you, cause you've been here before  
The chair is an island, darling, you can't touch the floor

And all my love remind me, what was it that I said  
I can't help but pull the Earth around me to make my bed  
And all my love remind me, what was it that I did  
Did I drink too much?  
Am I losing touch?  
Did I build a ship to wreck?

To wreck, to wreck, to wreck  
Did I build this ship to wreck?

Good God, I'm star, the skies  
We are lost, into the breach, we got tossed  
And the world is coming in fast

And all my love remind me, what was it that I said  
I can't help but pull the Earth around me to make my bed  
And all my love remind me, what was it that I did  
Did I drink too much?  
Am I losing touch?  
Did I build a ship to wreck?

To wreck, to wreck, to wreck  
Did I build this ship to wreck?
