And by looking at you girl, I feel the hurt you do  
Through the good and the bad times, I'll be there  
Keep your head up high, don't you ever feel despaired  
I'm always here for you and you know this much is true  
If you're ever feeling doubt, I'll come and comfort you  
Let's live a life of hope and give a love unknown  
And together we'll see what the future holds
