

Foals, Sunday

time has come and time is done
cities burn, we got youth to spend
and time to waste
to life to live again my friend

through the flames
and through the fire
cities burn
we don't give a damn
cause we got all our friends right here
we got youth to spend

and all is said
and all is done
our father run and leave all the damage
they've done behind
left us with the blind leading the blind

through the flames
and through the fire
cities burn
we don't give a damn
cause we got all our friends right here
we got youth to spend

time away from me is what I need
to clear my sight
and clear my head
I'm coming down /3x
over it

I'll be right there
I'm finally over it /3x

the birds are all singing
it's the end of the world
the birds are all singing
it's the end of the world
the birds are all singing
it's the end of the world
the birds are all singing
it's the end of the world
