Foo Fighters, Next Year

I'm in the sky tonight, There I can keep by your side Watching the wide world riot and hiding out I'll be coming home next year Into the sun we climb Climbing our wings will burn white Everyone strapped in tight We'll ride it out I'll be coming home next year Come on get on get on Take it till life runs out No one can find us now, Living with our heads underground Into the night we shine Lighting the way we glide by Catch me if I get too high When I come down I'll be coming home next year I'm in the sky tonight There I can keep by your side Watching the whole world wind around and round I'll be coming home next year I'll be coming home next year Everything's alright up here When I come down I'll be coming home next year Say good-bye
