

Foo Fighters, Run

Wake up
Run for your life with me
/2x

In another perfect life
In another perfect light
We run /3x

The rats are on parade
Another mad charade
What you gonna do
The hounds are on the chase
In everything's erase
What you gonna do
I need some room to breathe
You can stay asleep
If yu want to
They say that's mothing free
You can run with me
If you want to
Yes, You can run with me
If you want to

Before the time runs out
There's somewhere to run

Wake up
Run for your life with me
/2x

In another perfect life
In another perfect light
We run /3x

We're the nation's stakes
If everything's erased
In everything's erase
What you gonna do
I need some room to breathe
You can stay asleep
If yu want to
They say that's mothing free
You can run with me
If you want to
Yes, You can run with me
If you want to

Before the time runs out
There's somewhere to run

Wake up
Run for your life with me
/2x

In another perfect life
In another perfect light
We run /3x
