

# Fool's Garden, She's So Happy to Be

(Hinkel / Freudenthaler)

She says that: "All that I can say  
is I feel hungry" and today  
she says that all my hunger  
she'll satisfy no more

She says: "As far as I can see  
you're not the only one for me"  
She's leaving sweet illusions  
I'm all by myself

She's so happy to be  
It's too much freedom for me  
She has turned the key  
and she gives it back to me

She says that all I have to do  
is to watch out for someone new  
She says life's wonderful  
some consolation that is

She says 'chin up - your life goes on,  
you'll see I'm not the only one  
I won't be persuaded I don't see it that way

She's so happy to be  
It's too much freedom for me  
She has turned the key  
and she gives it back to me

All that I can find  
especially in my mind  
It's some kind of perfect interference  
All that I can see  
my baby's glad to be  
to all appearance  
All that I can say  
it's happening every day

She has turned the key  
and she gives it back to me

I guess she doesn't like that lovesong,  
I guess she doesn't like that way  
She says she doesn't like that lovesong,  
she says it and she walks away.
