Fool's Garden, Welcome Sun

Welcome good old sun
There aint no love when you dont come
Welcome sun. welcome , welcome
Welcome good old sun
Send out your light to everyone
Show your face, the night is gone
Welcome

Light up all the places
Light up all the faces
Illuminate the world

Shine on every flower
Give us all your power
Come and break the day

Lead us , we are blind men
lead us that we find an answer for a better world

Welcome good old sun
There aint no love when you dont come
Welcome sun. welcome , welcome
Welcome good old sun
Send out your light to everyone
Show your face, the night is gone
Welcome

Set our hearts on fire
Let our souls get higher
Give us love and peace

Burn envy and hatred
Encourage us to make it
Illuminate the world

Lead us , we are blind men
lead us that we find an answer for a better world

Welcome good old sun
There aint no love when you dont come
Welcome sun. welcome , welcome
Welcome good old sun
Send out your light to everyone
Show your face, the night is gone
Welcome
