## Fooled By April, Nice To See You

"It was all for you and me now its just a memory would've basement entertainment century and I though you had it made way back in seventh grade days that we all wasted in the video arcade

so just kick off your shoes there's nothing left to do its so nice to see you here I thought that I had lost you there its so nice to see you and I'm all right

so your glory days are spent well mines not happened yet or did I lose them in a cloud of gin and cigarettes and I thought you had it made way back in eleventh grade days that we were wasted in the video arcade

so just kick off your shoes there's nothing left to do its so nice to see you here I thought that I had lost you there its so nice to see you and I'm all right

so just kick off your shoes
there's nothing left to do
its so nice to see you here
I thought that I had lost you there
its so nice to see you
and I'm all right
I'm all right

its so nice to see you here
I thought that I had lost you there
its so nice to see you and I'm all right

its so nice to see you here
I thought that I had lost you there
its so nice to see you and I'm all right
I'm all right

this time (x9)"
