

# For All Those Sleeping, Never Leave Northfield

This is the fight for your life  
You can't give in so wake up son  
You've got a war to win  
You've got a war to win

Hey, kid, don't make a mistake  
Remember that heroes aren't made  
They're born that way

This town is ours so don't make a sound  
And if you're lucky I may save this last round  
Go make my day  
I never forget a face  
And I'm sure yours could haunt me on for days

We're outlaws  
You can believe what they say  
We're outlaws  
We'll leave your city in flames  
There's a bounty on my head  
But a smile on my face  
Because we're outlaws  
We'll take this song to our graves

This town is ours so don't make a sound  
But if you're feeling lucky I'll save two last rounds  
Take it all the way  
This is the one risk to take  
Don't be forgotten

We're outlaws  
You can believe what they say  
We're outlaws  
We'll leave your city in flames  
There's a bounty on my head  
But a smile on my face  
Because we're outlaws  
We'll take this song to our graves

Through these eyes I see no fear  
Live for dying  
Through these eyes I see no fear  
Live for dying

We're outlaws  
You can believe what they say  
We're outlaws  
We'll leave your city in flames  
There's a bounty on my head  
But a smile on my face  
Because we're outlaws  
We'll take this song to our graves

This is the fight for your life  
You can't give in so wake up son  
You've got a war to win  
You've got a war
