

Foreigner, Hand On My Heart

Foreigner - Hand On My Heart

Rescue me
I can't dream this dream any more, my dream oh my dream
Set me free
I keep holdin' on but
I don't know what for

All I know
Is that I've breathed your name for what feels like a lifetime
I can't let go, you're a part of me

And I die each time
I lose a little more of you
And I look for a sign, to give me hope
We'll find a love we once knew

And all I know
Is when we're face to face when there's no one between us
With one last embrace, we'll let time heal the pain

Keep your hand on my heart don't let go
I can't see you're too close to me
Don't leave me in the dark, keep your hand on my heart
Oh please, only you, lonely me

It's not enough, to simply talk about love
As if it were in our control
Now as I struggle with the past, I can't think about the future
It's so hard to let go

And all I know
Is I still whisper your name, girl it won't be the last time
As our lives go separate ways
And let time heal the pain

Keep your hand on my heart don't let go
I can't see you're too close to me
Don't leave me in dark, keep your hand on my heart
Oh please, only you, lonely me

Keep your hand on my heart don't let go
I can't see you're too close to me
Don't leave me in dark, keep your hand on my heart
Oh please

Keep your hand on my heart don't let go
I can't see you're too close to me
Don't leave me in dark, keep your hand on my heart
Oh please, only you, lonely me
Only you, lonely me
