

Forgotten Tomb, Kill Life

Die for me - I'll swallow all your pain
Kill me - Release me from this strain
Feel it - You are going to be forgotten
Taste it - The hand of unforgiveness

I injure myself
Searching for a way out
In my eyes you see
The horror of being alive

Cry for me - I need this pain to live
Hate me - I feed on your own sickness
Breathe it - The stench of self-destruction
Love it - It's the only thing that's left to you

I watch my blood flowing out
You feel your tears running down
Hold my wounded flesh now
I'm the last thing you crave for

Life is pain
We're doomed to destroy another one
Who stands in our way
'cause we were born under a cursed star

You wanted to suffer
But I need a last relief
I need to bleed
I need to kill life

I need to kill life
