

# Foster The People, Miss You

Forget your problems  
Lay it down, they start up  
The innocence of what you are is what I want  
I've ran my colors dripped down and drained out  
Tried a million things, but my heart's been shot

I hope you try to find me, I'm all spun and pacing  
I know what you want to say here, so say it  
Forget the words I'm speaking  
Just want to rearrange so I'll just say it

I really miss you, I miss you, I said  
Smile at the chance just to see you again  
I really miss you, I miss you, I said

Heat stroke, death's like  
The wrong things that I think are right  
I never knew I could go as far as this  
I took your problem recently forgotten  
I know who I had been before I slipped  
Oh, I want to change it  
I will live a life that makes you smile when I'm done here and long gone  
Feverish and peaking, just want to see your face  
What you say, what you say?

I really miss you, I miss you, I said  
Smile at the chance just to see you again  
I really miss you, I miss you, I said  
Just look at me now before I walk away  
You just might miss me, or miss me one day.
