

# Foxes, Echo

I can hear your thoughts  
Please don't leave now  
I can't sleep alone  
Chasing the light until the dawn

Thought we left a tray  
Back to the way that it was  
I can see it now  
In your eyes you let it fall

Running in a creep  
Of a thousand words  
Hiding in the dark  
Of violent stars  
Looking for a star  
We've gone too far  
Too far

Don't hide in the dark  
Playing shadow games  
Turn out the lights uuu  
Time for a change  
Cause the devil sleeps in your head

Don't hide in the dark  
Playing shadow games  
Turn out the lights uuu  
Did you say we would stay  
Till we hurt the love  
Echo, echo, echo

Look in to my eyes  
Do you see something to defend  
Spinning in the lights  
Well I grow old beofre I die  
Silence is a curse  
I feel it breaking the ice  
I can see it now  
In the eyes who let it fall

Running in a creep  
Of a thousand words  
Hiding in the dark  
Of violent stars  
Looking for a star  
We've gone too far  
Too far

Don't hide in the dark  
Playing shadow games  
Turn out the lights uuu  
Time for a change  
Cause the devil sleeps in your head

Don't hide in the dark  
Playing shadow games  
Turn out the lights uuu  
Did you say we would stay  
Till we hurt the love  
Echo, echo, echo

You got to be the star
