

Foxes, Let Go For Tonight

Fell from the sky,
We fell from the sky and started walking
Leaving our footprints on the ground
It might be a prayer, or maybe a piece of conversation
Wherever we go we make a sound
So I call your name, the only thing I know
Is I need you here will you be gone forever
All that I know, all that I know
Is we're here tonight
Turn off the lights

Let go for tonight baby
Let love in your life and be shown
Let go for tonight baby
Who needs sleep tonight
I need to let go, let go,
Let go, let go, turn off the lights
Let go for tonight baby
Who needs sleep tonight

I wanna drive, I wanna drive into the open
Looking for reasons I can't find
So I call your name, the only thing I know
Is I need you here will you be gone forever
All that I know, all that I know
Is we're here tonight
Turn off the lights

Let go for tonight baby
Let love in your life and be shown
Let go for tonight baby
Who needs sleep tonight
I need to let go, let go,
Before we're gone

I wanna drive, I wanna drive into the open
Looking for reasons I can't find
So I call your name, the only thing I know
Is I need you here will you be gone forever
All that I know, all that I know
Is we're here tonight
Turn off the lights x 2

Let go for tonight baby
Let love in your life and be shown
Let go for tonight baby
Who needs sleep tonight
I need to let go, let go,
I need to let go, let go,

Fell from the sky,
We fell from the sky and started walking
Leaving our footprints on the ground.
