

# Freddie Mercury, I Can Hear Music

This is the way  
I always dreamed it would be  
The way that it is, oh  
When you are holding me  
I never had a love of my own  
Maybe that's why when we're all alone  
I can hear music  
I can hear music  
The sound of the city baby  
Seems to disappear, oh when  
I can hear music  
Sweet sweet music  
Whenever you touch me baby  
Whenever you're near  
Loving you  
It keeps me satisfied  
And I can't explain, oh no  
The way I'm feeling inside  
You look at me we kiss and the  
I close my eyes and here it comes again  
I can hear music  
I can hear music  
The sound of the city baby  
Seems to disappear, oh when  
I can hear music  
Sweet sweet music  
Whenever you touch me baby  
Whenever you're near  
I can hear music  
I can hear music  
The sound of the city baby  
Seems to disappear, oh when  
I can hear music  
Sweet sweet music  
Whenever you touch me baby  
Whenever you're near
