

# Freedom Call, Hammer Of The Gods

Here and now, I'm mystified  
What is wrong, what is right  
When the blind lead the blind  
On the edge of creation

In despair from a clash of emotions  
In a world full of anxious fear  
Send us hope  
Bring us salvation

Ref.  
Can you hear  
The hammer of the Gods in the distance  
Tossed through the universe beyond  
Can you feel  
The strong arm of the law and existence  
They're leading our way  
Let's follow the hammer of the Gods

When my mind is going insane  
Tell me whose to blame  
It's a beast, it's a priest  
Is it matter of madness?

Don't dare to rely on illusions  
Believe in a maze of thoughts  
Lead us the way to our redemption

Ref.  
Can you hear  
The hammer of the Gods in the distance  
Tossed through the universe beyond  
Can you feel  
The strong arm of the law and existence  
They're leading our way  
Let's follow the hammer of the Gods

When a force is rising, through the night  
For a battle, standing tall for the fight  
When hope's ascending, no fear inside  
For salvation, standing tall to heaven on high

Ref.  
Can you hear  
The hammer of the Gods in the distance  
Tossed through the universe beyond  
Can you feel  
The strong arm of the law and existence  
They're leading our way  
Forever and ever  
Let's follow the hammer of the Gods
