

# Freedom Call, Heart of a Warrior

When you fight out there alone,  
For a king upon his throne  
And the realm is drowned in shadows  
And you'll keep the flame of hope  
Crawling through the night, we will overcome  
A lightning strikes into the ground,  
The battle has begun

With the Heart of a Warrior we fight, Ohoo  
With the Heart of a Warrior we stand as one unite  
With the Heart of a Warrior we fight  
Together marching through the night  
For the kingdom we hold our flags high

I can see the battlefields far beyond the hills  
And the enemy proceeds to the place of their defeat  
With pride we hold on till the end,  
men with burning hearts  
Our spirit's will go with the wind, if we ever fall

With the Heart of a Warrior we fight, Ohoo  
With the Heart of a Warrior we stand as one unite  
With the Heart of a Warrior we fight  
Together marching through the night  
For the kingdom we hold our flags high

Warrior, Warrior  
With a Heart of a Warrior, Ohoo  
With a Heart of a Warrior, Ohoo  
With a Heart of a Warrior
