

# Freedom Call, Journey Into Wonderland

As a child you were born, safe from despair  
A guardian angel will lead you to care  
Return to the light, the innocent world  
Salvation is near, for Freedom we call

As a trooper you fight  
As a hero you'll die  
For an army for Freedom,  
Courageous in mind  
When forces of evil  
In darkness collide  
Give us hope, give us the pride

Bring us back to the light  
Where the spirit is high  
It's our journey into wonderland  
Over and over again

We'll never stop we all run  
Far away, not alone  
To the place where the eagles fly  
On wings we're riding high  
Until the time will come  
Anywhere, anyone  
Where the rays of eternal life  
Are shining to the sun

See the smile of the devil  
The grimace of hell  
His finger of evil is leading the spell  
Hear the voice of an angel  
He's calling for you  
Away from the darkness, it's blazing in your soul

Where the spirit is high  
For ever and ever again

We'll never stop we all run  
Far away, not alone  
To the place where the eagles fly  
On wings we're riding high  
Until the time will come  
Anywhere, anyone  
Where the rays of eternal life  
Are shining to the sun

Bring us back to the light any time  
Where the spirit is high, so divine  
It's our journey into wonderland  
For ever and ever again

We'll never stop we all run  
Far away, not alone  
To the place where the eagles fly  
On wings we're riding high  
Until the time will come  
Anywhere, anyone  
Where the rays of eternal life  
Are shining to the sun

Until the time will come  
Anywhere, anyone  
Where the rays of eternal life  
Are shining to the sun

We'll never stop we all run
