

# Freestyle, Blind Love

baby give me a chance  
may I have this dance  
don't make it the last  
make it the first  
pratically loved, always hated  
by jealous ones  
just understand where I'm comin' from  
I was the one chosen  
I got my own destiny  
I need a route to find my life  
I just hope my life is 4 u  
I just need you next to me  
or atleast for now 'til then listen

Chorus:2x

when you look into my eyes  
do you see my pain  
our love is blind  
still it can't see through anything  
I can't rap I can't think  
I'm a ghost in your mind  
I had a little 2 much 2 drink  
when I'm not with you  
I'm with another, what  
you thought I was goin' 2  
be stuck on you  
I was but you let go  
now we back together  
and It just isn't the same  
this love has changed

chorus:2x

when you look in my eyes  
do you see my pain  
our love is blind  
still can't see through anything
