

# Freestyle, Don't Break My Heart

You keep on trying  
Trying to tear me apart  
But I'm the from the virgin star  
But you, you steal my heart  
It sounds like you were crying  
I never know that you were lying  
What we have must be  
You can't hide no more from me  
You had my heart  
Your my dream from the star  
You know I need you baby  
You touch my soul  
Do you want me to go  
I thought I loved you baby

Chorus:

So don't break my heart  
Finish what you started baby  
Don't break my heart  
I can't live without you  
Don't break my heart  
My love was so true baby  
Don't break my heart  
Don't break my heart  
Don't break my heart  
You were denying  
Denying that you didn't care  
Stop, Stop Playing this game  
Show me your love is still there  
But the love, love that is inside me everyday  
He has a strong one  
What we have must be  
You can't hide no more from me  
You had my heart  
Your my dream from the star  
You know I need you baby  
You touch my soul  
Do you want me to go  
I thought I loved you baby

Chorus:

So don't break my heart  
Finish what you started baby  
Don't break my heart  
I can't live without you  
Don't break my heart  
My love was so true baby
