

# Frehley's Comet, New Kind Of Lover

She's made of shadows  
That live at night,  
Ooooh I dream of things  
No one would dare  
Last night she came to me for a second time  
Through the walls, suspended in the air!

(She's) a new kind of lover  
She makes loves like no other  
She came to me from a long time ago

(She's) a new kind of lover  
She makes loves like no other  
I don't wanna know that she's a ghost

She knows my secrets  
When we're alone  
She plays them out  
While I'm asleep  
Last night she woke me up with a touch so cold  
Can it be she's playin me for keeps

(She's) a new kind of lover  
She makes loves like no other  
She came to me from a long time ago

(She's) a new kind of lover  
She makes loves like no other  
I don't wanna know that she's a ghost

I dont wanna know  
Please don't let me know

(She's) a new kind of lover  
She makes loves like no other  
She came to me from a long time ago

(She's) a new kind of lover  
She makes loves like no other  
I don't wanna know that she's a ghost
