## Funeral For A Friend, On A Wire

I'm on fire
Close to the water
And I'll be saved again
Staring at the ocean, over and over
Will I ever see them again?

Why'd they leave so soon?

Find a way to bring me home
I don't wanna be alone again
Not again
Find a ship to take me home
I don't wanna be alone again
Not again, not again, not again,

I'm on a wire, over the border And I'll be safe again Living on an island, over and over I don't think I'll see them again

Why'd they leave so soon?

Find a way to bring me home I don't wanna be alone again Not again, not again, not again

As the daylight fades (daylight fades) I am a broken man, all alone As the daylight fades (daylight fades) And I'm just a broken man All alone, with no hope

You are an island

Find a ship to take me home I don't wanna be alone again Not again, not again, not again

Find a ship to take me home I don't wanna be alone again Not again, not again, not again

You are an island All alone in your silence
