

# Future, Hard Work Pays Off

They say hard work pays off  
I've been feelin' paid off  
Tryna take it, then you're dead, Nate Dogg  
Put this chopper to your head  
And, and take it off  
Fast break, takin' off  
Dunk on a bitch, John Wall (Woah, woah)  
Keep niggas on they toes  
I ain't never play fair  
Throwin' elbows  
This a AK, yeah  
Bullet to your skull  
Damn, now it's blowin' all on my red coins

Tell that ho I'm rich, rich, rich, rich, rich  
I'm richer than a bitch, bitch, bitch, white bitch  
Blue face everywhere  
Pull up, they stare  
Fendi, my underwear  
She saw my dick, she like "damn"  
I need me a money counter, counter  
Money all over the kitchen counter, counter  
I think I need me a money counter, counter  
Money all over the kitchen counter, counter

Call my doctor to heal my pain  
Perkys takin' my life away  
I'ma bag your bitch, because I can  
I'ma go take your wife away  
Chopper on me, Afghanistan  
That bitch killed many men  
Over the bag, over the cash  
Yeah, I'm a money fan

Over the bag, on your ass  
Yeah, hoppin' out the van  
Switched up to the Lamb'  
How you niggas like me now? (Yeah)  
No Limit the gang  
Try it, they gon' shoot you down (Yeah)  
Loaded up, and I'm gunnin' you down

They say hard work pays off

They say hard work pays off  
I've been feelin' paid off  
Drippin' on 'em every day, steak-sauce  
Put the chopper to your head, take it off  
Fast lane, takin' it off  
Breakin' your ankle, Chris Paul  
Yeah, yeah, yeah, yeah, yeah  
I'm so on, right now my legacy will never fade

I've been traumatized before, but still I'm not afraid  
I done seen friends turn foe, it don't amaze me  
Came from the bottom of the 'crete, this shit was ugly  
Made it to the top of the mountain drinkin' muddy  
Everyone around me changed, and I feel so neglected  
Hoppin' on the bird with some birds, they respect it (Yeah, yeah)  
24/7, every day we get it in (Yeah)  
Started livin' out my dreams, feel like I was born again (Aye)
