

Future Islands, Seasons (Waiting On You)

Seasons change
And I've tried hard just to soften you
Seasons change
But I've grown tired trying to change for you

Cuz I've been waiting on you
I've been waiting on you
Cuz I've been waiting on you
I've been weighing on you

As it breaks, the summer will wake
But the winter will wash what is left, of the taste
As it breaks, the summer will warm
But the winter will crave what has gone
Will crave what has all
Gone away

People change
But you know some people never do
You know when people change
They gain a peace, but they lose one too

Cuz I've been hanging on you
I've been weighing on you
Cuz I've been waiting on you
I've been hanging on you

As it breaks, the summer will wake
But the winter will wash what is left, of the taste
As it breaks, the summer will warm
But the winter will crave what has gone
Will crave what has all
Gone away

I've been waiting on you...
