

# Future, On 2 Us

I just bought a new watch  
I think they on to us  
I got four or five spots  
I think they on to us

All we drive is foreign cars  
I think they on to us  
Every time I'm in the club I'm with a foreign brand  
I swear they on to us

AP or Frank Muller I got choices  
I'm in the car by myself I'm hearing voices  
Lamborghini, Bentley Coupe, Bentley, Rolls Royces  
Gotta the way entourage attracts the task forces  
Hand the kush out the DJ booth make it rain  
If they find out we in, I might lose my chain  
Things might change  
Gave the waitress Ben Frank for a drank  
She kept the change  
Is he rapping? Is he trapping? Bitch, I'm in my own lane  
Driving down 75 in a foreign vehicle  
On my way to my people  
I close examine every vehicle  
I can't say what it is right now  
I can tell it something fishy going on  
Esco and I smell it

Hit the studio all day to stop myself from catching plays  
I know the alphabet they looking for the rappers with them K's  
My life is more than a stage paranoid why you watchin  
Is you watching me preform or is you watching cause you copying  
Try to convict me on the ice: I'm rocking  
Could it be my ears  
Man tell me what it is all these damn designer gear  
I'm bout to stop rocking jewelry I can't tell who people is  
Just by looking in the crowd you looking blurry over here  
Something bout to happen in a minute I can't tell it  
Something fishy going on X-Rayed and I smell it!
