

G-Eazy, Provide (ft. Chris Brown & Mark Morrison)

i am just sayin'
they know you are
that's the vibes

It's the return of the mack, RIP to Furl
I promise you aon't nothing like these LA girls
And we can sip slurrricane
Listin' to Earl
Who knew we'd bring the Bay to the world?
Love letters to you hit difference
That any shit that i wrote
I sent flowers to your office
Hope you get the note
I put the inside joke
bEtween us right there in the quote
i'll sing your praises all day
i'll hit the withney note

caus eyou're my queen
all that i need
yadadamen
Rasdiohead and rainbows
Ultralight beams
This worldplay's more like tennis
Don't need a team
It's just me and you
And it's everything that is seems, for rela!

Just vibe with me
Come on
Let;s do some things we never do
Switch side
Get dry
So what?
So what?
I need
So what?
I need
Don't turn down now
Tell me if you need a timeout
Girls, it's just you and us, baby
Rollin' up
Baby you playin'

Know you feel boxed in
Let me get you out your mind frame
Just know i am serious
I ain't into playin' mind games
We could go rounds
I wanna eat it like a entree
Favourite position, i be hittin' that all kinda ways
You throw it back
I spent then stacks
I feel like Andree
You into zodiacs?
Girl, tell me what your sign say
Won't take your lovefor granted
It could all be gone today
Let's get away, tuck off way out in Monterey
You said you scared oh heiggths
But i know you ain't scared to ride
Come where i reside
Pull tchem panties to the side
Fuckin' when you mad

Make me love when we collide
Could tell i was invited how you let me come inside
Made me switch plans, had to change up the course
And we know that love don't feel the same when it's forced
You can pick, we hoppon' out the Range or the Porsche?
Now you masd, slappin' 'Lemonade'
In teh Poesche
Relax

Just vibe with me
Come on
Let;s do some things we never do
Switch side
Get dry
So what?
So what?
I need
So what?
I need
Don't turn down now
Tell me if you need a timeout
Girls, it's just you and us, baby
Rollin' up
Baby you playin'

You in my city
So i am not gon' take it easy on you
Never let you nobody else
Baby, i'ma keep you u pall night
Sexin' don't keep if from em
He ain't me, i look better
Come on baby i need your lovin'
Forever and ever

Just vibe with me
Come on
Let;s do some things we never do
Switch side
Get dry
So what?
So what?
I need
So what?
I need
Don't turn down now
Tell me if you need a timeout
Girls, it's just you and us, baby
Rollin' up
Baby you playin'
