

# Gabrielle, If I Could

Though I understood  
All the things that you told me  
You were going through  
Tried to be there and wanted  
to pull you through  
And show you how much you've loved  
Make a song and dance  
Whenever i would ask you  
just what was wrong  
You would say something like  
nothing hon  
All along telling me lies  
If you really cared  
Cared about me  
Then you would care about  
Care about us  
If you cared about me  
Then you would have cared about love  
Felt betrayed  
I was giving good loving  
Yet still you strayed  
Wasn't I good enough  
You were oh so sweet  
I guess it was your sweetness  
That blinded me.  
If you really cared....  
If you cared  
You would be there for me  
You wouldn't have left me  
feeling lonely  
If you really cared  
Then you would have cared about us  
Cared about love  
Said you cared  
Now you're asking for forgiveness  
It's much too late  
I don't want you near  
If you cared about me  
Then you would have cared about love  
If you really cared  
Cared about me  
Then you wouldn't have  
Hurt me as you did  
If you cared about me  
Then you would have cared  
about love
