

# Gamma Ray, Empire of the Undead

Running through the cold night, fever in my mind  
Shadows in the haze are coming from behind  
Tonight I'm gonna meet them 'cause tonight I wanna die  
I wanna be an undead until the end of time  
Living like the others ain't my will  
Got Only one desire, I wanna get my fill

Running, screaming, I'm burning for more

Empire of the undead  
Empire of the undead  
Empire of the undead  
Empire of the undead

Something right behind me is killing all the light  
It feels so good, it makes me warm, it fills me with delight  
It leads me to the chapel where I will embrace the love  
The ceremony is prepared, the heavens cry above  
Here I'm coming, out of my way  
All eternal, here to stay

Demon, vampire, wizard,  
We are....

Empire of the undead  
Empire of the undead  
Empire of the undead  
Empire of the undead

The undead are coming, I'm on their side  
The undead are coming, in the night  
No place in hell for me and you  
So better be an undead, too

The undead are coming, we're on our way  
The undead are coming, we're here to stay  
The realm of shadows don't need no right  
Come to the undead, escape from the light

Solos [for those who care: Kai/Henjo/Both/Kai/Henjo]

Running through the cold night, fever in my mind  
Shadows in the haze are coming from behind  
Tonight I'm gonna meet them 'cause tonight I wanna die  
I wanna be an undead until the end of time

Living like the others ain't my fuckin' will  
Got only one desire, I wanna get my fill

Screaming, burning, undying,  
We are....

Empire of the undead  
Empire of the undead  
Empire of the undead  
You wanna get your fill, you better talk to hell

Empire of the undead  
Empire of the undead  
Empire of the undead
