

Gantz, We Pray For Our Souls

We pray for our souls
To lie alive in this night
We pray for our souls
To live and not to die
Today i felt that the end is near
As everything became black
Life and death dont have how to escape
The end will come
We prat for ours soul
To have more time
Nothing matters because i can live
Destruction, yes, my souls is in piece
When i left my house, my faith was stole
Nothing matters because im gonna live
