

# Gary Barlow, Let Me Go

A room full of sadness  
A broken heart  
And only me to blame  
For every single part  
No Science or Religion  
Could make this whole  
To be loved, but never loved  
To have, but never hold  
It's a life alone, and a desperate need  
To be held to be loved so  
This is gonna take a bit of getting used to, but i know what's right for you

Fly high and let me go  
That sky will save your soul  
When you pass by then you'll know  
That this gonna take a bit of getting used to but i know what's right for you  
Let me go

A head full of madness  
And no where safe  
When tears aren't big enough, and love turns into hate  
It's a life alone, and a desperate need  
To be held to be loved so  
That this gonna take a bit of getting used to but i know what's right for you

Fly high and let me go  
That sky will save your soul  
When you pass by then you'll know  
That this gonna take a bit of getting used to but i know what's right for you

So let me go life will get better  
Find the love i never gave ya  
I know you lie there waiting all night long, so find where you belong

Fly high and let me go (Let me go)  
That sky will save your soul (Let it save your soul tonight)  
Fly high and let me go (Let me go let me go)  
That sky will save your soul  
But this gonna take a bit of getting used to but i know what's right for you  
Let me go
