

# Gary Brooker, Get Up And Dance

(Gary Brooker / Pete Sinfield)

Well she looked me up and down  
I said I'd just got into town  
She said welcome it's a friendly kind of place  
So I asked her if by chance  
She knew where a man could dance  
She said Yes Sir and a smile lit up her face

I said did she  
She said I do  
I said would she  
She said with you  
I said well now if that's OK  
But if you wanna boogie baby  
Lets stop wasting time this way

Get up and dance you newer know what you might find  
Get up and dance nobody cares nobody minds  
Get up and dance you in the corner don't be shy  
Get up and dance let the music get you high  
Get up and dance get up and dance

Well we danced the night away  
I said I have no place to stay  
She said well you've got a friendly kind of face  
So I asked her if by chance  
She could help a man who danced  
She said Yes Sir I know just the place

I said did she  
She said I do  
I said would she  
She said with you  
I said well now if that's OK  
But if we're gonna make it baby  
Lets stop wasting time this way

Get up and dance go and find a hand to hold  
Get up and dance you know it stops you gettin' old  
Get up and dance there ain't a thing you've got to loose  
Get up and dance I want you rockin' in your shoes  
Get up and dance get up and dance
